

Global business **solutions**

Screen-printing industry

Our excellent production capabilities stem from precise quality-oriented choices based on the use of cutting-edge technologies and systems.

It's all about authentic expertise founded on entrepreneurial ethical standards that respect and protect our environment and its precious resources.

Why choose

MANDER is a global supplier and consultant for all requirements in the fields of ideation, design and printing.

Over 40 years of success

For over 40 years and more, we have been committed to the quality of our products, answering our Clients' requests promptly and effectively. Customised 'turn-key' technical and commercial consulting and excellent product quality and execution are the qualities that make MANDER products stand above the competition.

FROM 1972 **EXPERIENCE
& PASSION**

Successful enterprises will find in MANDER a reliable partner that provides forward-looking customer service, professional quality and flexibility for its Clients' needs.

Mander offers high performance **Global solutions**

tailored to the different communication
needs of companies.

With our printing methods and cutting-edge machinery we are in the position to offer printing on various kinds of substrates ranging from stickers to surfaces such as aluminum, steel, glass, wood and plastic, as well as inkjet digital printing and thermal transfer, plotter large-format printing and lamination.

Our approach is result-oriented, our solutions are highly customised and are implemented using advanced technology that ensures maximum quality.

We design highly customised solutions

Every day we work next to our Clients to find the most suitable solution, to design the most effective technical application and to bring an idea, a drawing to life.

We offer constantly upgraded technologies

In such a fast-moving world, MANDER continuously invests in technology, acquiring constantly upgraded programmes and advanced machinery.

We guarantee advanced products

MANDER products are designed with utmost care and down to the smallest detail, so as to offer a vast range of solutions.

Our experience in many commercial sectors and our constant attention to evolution in techniques, materials and equipment allow us to guarantee superior quality products that ensure durable and effective technical and design solutions.

Technical **assistance**

MANDER offers precise and efficient technical and commercial advice.

In the selection and execution phases of its products, showing flexibility in its technical choices.

Our consulting

Technical competence, reliability, availability and enthusiasm in the search for technical solutions capable of meeting the needs of the Client: these are the features that make up the MANDER style.

Technical assistance

MANDER's technical assistance offers a 'turn-key' service that addresses all of the aspects that can elevate a product to success.

Graphics

This is where every idea takes shape and where the process, the costs and the lead times are optimised so as to guarantee products featuring the best quality, durability and efficiency possible, achieved by using state-of-the-art machinery, constantly upgraded software and highly skilled personnel.

Quality:

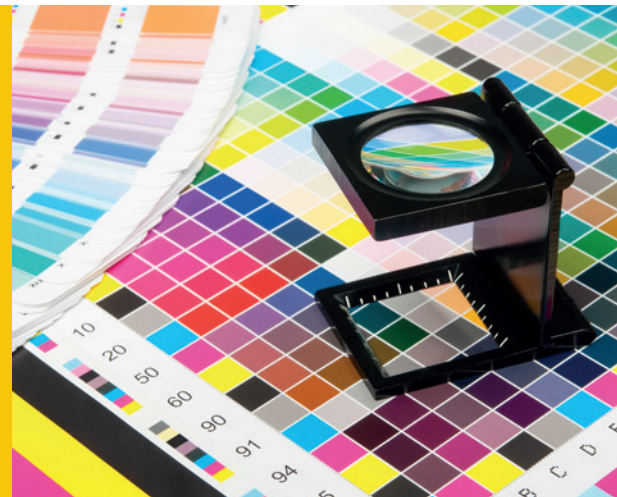

A passion for excellence

We strive to offer our Clients the highest quality level possible with our products.

Our field-proven system allows us to offer our Clients the highest levels of quality and complete traceability of each project.

Each process provides the right solution using materials such as PVC, POLYPROPYLENE and POLYESTER in various thicknesses and with select adhesives, RESINS and high-covering pigments that are luminous and UV/IR resistant. A simply unique result, just like the Client imagined it, wished it and received it.

Our Clients

We can offer our Clients solid, fast and flexible service because at MANDER we work alongside our Clients through every project phase with the professional know-how and skill necessary to identify the best solutions possible.

Post-sale service

Efficient post-sale assistance that quickly addresses any restocking issues and guarantees product delivery on specific terms.

High-end commercial consulting

Ensuring privacy and confidentiality in the management of the entire industrial project.

Customer service

Our goal is total customer satisfaction.

MANDER is always monitoring the market and listening to its Clients so as to be ready to offer solutions that make a difference.

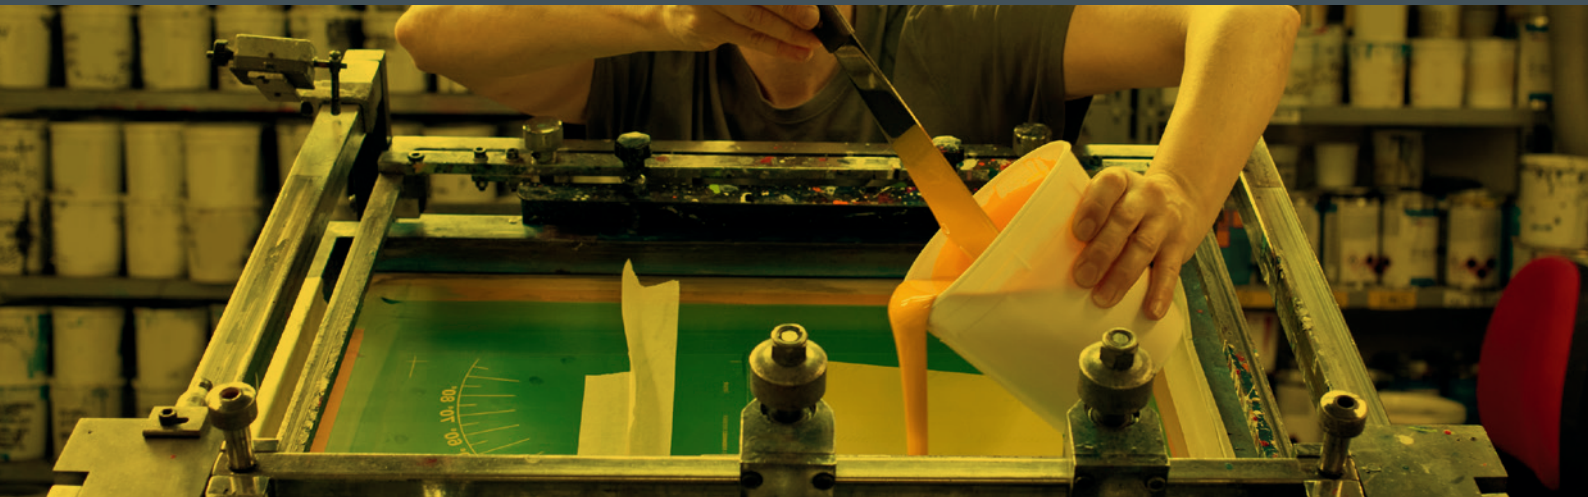

MANDER cares for the **environment**

MANDER has chosen to use raw materials in an informed manner, by constantly seeking less environment-polluting materials and by actively contributing to the reduction of CO₂ emissions into the atmosphere.

All of our **Products**

Each single MANDER product delivers innovation,
safety and durability.

We exclusively use **environmentally** friendly materials and inks which are compliant with European standards.

MANDER offers a vast range of high quality screen-printed products at competitive prices adaptable in terms of colours, shapes, materials and finish, unique in the choice of technical solutions and advanced design, highly customised as regards materials and manufacturing processes used, all performed with a sole aim: to meet the high quality requirements.

Stickers

Stickers can come in a very wide array of solutions using a vast range of products and materials, such as PVC, Polyester, Polypropylene and Polycarbonate, and various finishes and adhesives that are appropriately matched to the surface to be decorated. After careful analyses and tests conducted with the Client and thanks to the experience gained in many years of activity, we are good at selecting the most appropriate materials capable of meeting the most specific requirements.

- Punched sticker kits
- Advertising stickers
- Industrial stickers
- Stickers for toys
- Under clear coat stickers
- Resin/lenticular stickers
- Stickers for rims and wheels
- Punched stickers
- Dry decals
- Masking for painting
- Synoptic panels
- Crystal shields
- 3D effects

Aluminum

Aluminum of varying thickness and finish, processed flat or in relief, such as plates, custom head badges, square-cut or shaped, countersunk or folded. These products are used in the industrial sector. For this reason, their colours and paints are high temperature resistant and effectively withstand exposure to sun and light. The application of the products is obtained using high performance bi-adhesives that have been tested also on surfaces subjected to sharp changes in temperature.

- Custom head badges
- Aluminum plates
- Embossed plates
- Industrial plates
- Magnetic gadgets

Decals

Thanks to their thinness, water slide decals can be over-painted, thus incorporating the decoration into the object as if it had been printed on directly.

The main features of this material are: high thinness, flexibility, excellent colour fastness resistance to even the most aggressive agents and non-yellowing.

- XP water decals
- Decafix
- Decaplug
- Decachrome

Sectors of **Application**

Every MANDER product stands out for its manufacturing quality and details that are the result of a process that is designed down to the smallest detail and based on the skilful use of certified raw materials provided by selected suppliers.
